As seen on ...

“Everywhere, people are RAVING about how their pain just melts away!”

The XPV 'Pain Pod' is a non-invasive, drug free TENS (Transcutaneous Electronic Nerve Stimulation) unit. It is portable (size of an MP3 player) and convenient with the flexibility of 24/7 pain relief. It offers very effective pain relief solutions to people who have exhausted other forms of treatment and may assist in general health care for all ages. TENS machines have been shown to be an effective method for the treatment of acute and chronic pain. The 'Pain Pod' may assist conditions such as neck, back, shoulder, hip or knee pain, headaches, migraine, arthritis, sciatica, lumbago, muscular strains and even menstrual pain and child birth pain. Recently, our product was featured on **A Current Affair** and **Today Tonight** and has taken the Australian population by storm! **Why? Because our product WORKS!**

With the outstanding success of the XP range of products (**10 million sold in the United States in the past 8 years!**) 'The Pain Relief Kings' are passionate about improving quality of life to pain sufferers by providing these drug free solutions at an affordable price. Based on the Australian Medical Association's research on our Australian demographics, it has been shown that **1 in 5 Australians suffer from chronic pain DAILY.**
